CONTINUEChicago Railway Has
Hard Time.

MOB BEATS A DETECTIVE

Line Blocked—Cable Slot Filled With
Junk—Police Disperse Sus-
picious Crowd.

Chicago, Nov. 25.—During the past twenty-four hours strike sympathizers did more damage to the car lines than on any previous time since the strike was begun. Wires were cut in many of the cross-town lines, and all manner of blockade was put on the tracks in high-er piles than ever. In State street every manhole between Forty-first and Forty-seventh streets was filled with stones and debris, so that the grip could not pass over. A big gang of men worked steadily for hours removing the obstructions.

Another attempt was made to run the State street cars. Six trains were started from Sixty-first street. In spite of the police patrol, spikes were found driven in the cable slot at intervals, and the obstructions cleared away earlier in the day were replaced by the strikers in numerous instances.

Police Charge Crowd.
It took the State street trains two and one-half hours to go from Sixty-first street to Thirty-ninth, but from this street to the downtown district passage was practically unobstructed. The police, mistaking the intentions of a crowd in front of the headquarters of the engineers and firemen, who left the railway company's employ in sympathy with the trainmen, charged with drawn clubs. The crowd melted into neighboring saloons and hallways, and none was hurt.

John Ceper, twenty years old, a private detective employed by the Chicago City Railway company to guard trolley wires at Archer and Ashland avenues, was attacked by seven men. They beat and kicked him, leaving him in a semiconscious condition. After assaulting him they stripped him of his outer garments and took \$5 and a revolver.

London, Nov. 25.—Ambassador Choate gave a luncheon to William J. Bryan at Carlton House Terrace today. The affair was a brilliant one and a most prominent list of men was about the Terrace. Those present included the Earls of Denbigh and Onslow, Premier Balfour, former Chancellor of the Exchequer Ritchie and many others of note.

CANAL ENLARGEMENT.

State Engineer Bond About to Ad-
vertise For Bids.

Albany, N. Y., Nov. 25.—State Engineer Bond says that he will proceed at once to advertise for bids for the canal enlargement work. Five critical points will be chosen as test works, the idea of the state engineer being that if the bids for these works are within the estimates it will show that the rest of the work can be done within the estimated maximum. The five points at which work will thus be begun are Cohoes, Little Falls, Newark, Rochester and Lockport.

Mr. Bond says no new appropriation will be required for this preliminary advertising, that the superintendent of public works has on hand a balance of about \$200,000 which can be utilized and that the preparation for bids upon the five points mentioned will cost not more than \$150,000. This step will be taken as soon as the state board of canvassers has certified the vote on the canal referendum.

STUDYING TUBERCULOSIS.

Members of State Commission Have Re-
turned from Investigation.

Burlington, Nov. 25.—Three members of the Vermont State tuberculosis commission, Drs. D. D. Groat of Waterbury, W. N. Bryant of Ludlow and the Hon. Henry Ballard of this city, have just returned from a short tour of inspection among a few of the leading sanitariums in New York and Massachusetts. Dr. H. E. Lewis of Burlington and Dr. Hubbard of Lyndonville were expected to go but on account of poor health were not able to undertake the trip. Drs. Groat and Bryant spent last Friday in New York city interviewing Dr. Lederic, health commissioner of that city, and others upon the subject of the proposed tuberculosis camp which they intend to establish outside New York and keep the patients for the most part in tents. Mr. Ballard joined them on Saturday morning at Liberty, N. Y., where is located the famous Dr. Loomis sanitarium. This institution is located in Liberty, Sullivan county, on the western slope of the Catskill mountains, about 100 miles from New York city, on the line of the New York, Ontario & Western railroad.

DILLINGHAM AS CHAIRMAN.

Suggested as Head of Vermont's Delegation
to National Convention.

Washington, Nov. 25.—The calling together of the national republican committee by Senator Hanna to meet in this city next month has brought out the fact that Senator Dillingham, Proctor, who was the able chairman of the Vermont delegation at the last two republican conventions, does not care for the honor next year. Senator Proctor was first a delegate to the national convention in 1888, when Vermont took such a prominent part in bringing about the nomination of General Harrison. Four years later the place was given to the Hon. H. H. Powers but again in 1896 and 1900 Senator Proctor was prominent in the convention as the chairman of the Vermont delegation. While it is still early Senator Proctor has deemed it wise to say that he does not care for the place in 1904; and in doing this he suggests for chairman of the delegation Senator Wm. P. Dillingham. Although identified for many years with political affairs Senator Dillingham has never been sent as a delegate to a national convention and he would very likely be willing to serve.

DECISION RESERVED.

Hearing in Attempt to Reopen the Clem-
ent-Wilson Case.

Brattleboro, Nov. 24.—A hearing was held in United States court at Brattleboro today before Judge H. H. Wheeler on the motion for a reopening of the case of S. D. Wilson vs. P. W. Clement, for alleged slander. The opening argument was made by Max L. Powell of Burlington, who held that the verdict against Wilson was contrary to the law and the evidence and that two juries were disqualified. Alexander Dunnington of St. Johnsbury, in behalf of the defendant, said if the plaintiff's counsel had evidence at Rutland that the jurors were disqualified, it was their business to move to have the jury dismissed. Mr. Powell said the information came to them by letter, that they brought the matter before Judge Wheeler, but did not think they should ask to have the case continued while they looked up evidence. The decision was reserved.

ting a Large Stock.

A SLIPPERY CUSTOMER.

Dentist at White River Junction Has a Var-
ied Experience.

White River Junction, Nov. 25.—A few days ago a local dentist was called upon by a traveling agent of a collection house in New York state, who wished the dentist to give the house the collection of doubtful accounts. The plan seemed feasible and the dentist signed the contract. The agent then presented what he alleged was a duplicate of the original paper. The dentist's suspicions were aroused. He read it through despite the agent's protestations that it was a loss of time, and found in the contract called a duplicate a clause not in the first document which would result in loss to the dentist.

The dentist was quick to act. He tore up the document he had signed and gave the agent two minutes to clear out.

LIVES LOST
BY EXPLOSIONThirteen Miners Killed at
Bonanza, Ark.

REPORT IS UNCONFIRMED

Walk and Passages of Mine Were
Terribly Torn By Ex-
plosion.

Fort Smith, Ark., Nov. 24.—Thirteen miners were killed and great damage was done by an accidental explosion of gas this afternoon in coal mine No. 20 at Bonanza, Ark., 12 miles from this city. At nightfall only six of the victims had been recovered.

When the explosion occurred there were about 175 men in the various shafts. All escaped without injury except the 13 who were employed in entry "K," the scene of the explosion. The force of the explosion was terrific and timbers were torn from the walls of the passages for several hundred yards at the mouth of entry "K." The passages were so completely obstructed that the work of rescuing the entombed men was tedious in the extreme and several hours were consumed before the first body was found.

It is thought that the gas was accidentally ignited from a miner's lamp. The miners who escaped, with the aid of others summoned from near by shafts, immediately set about clearing the passages in the vain hope that some of the 13 entombed men might have survived the explosion.

cation, and His Wife For Sec-
ond Offense.

Eagan and Was Put Out.

Montpelier, Nov. 25.—Thomas W. Eagan was before city court yesterday charged with breach of the peace but after a conference between the grand juror and F. L. Laird, attorney for Mr. Eagan, a not guilty was entered. The arrest was the result of a dispute over wages against Mr. Eagan over which there was a dispute and the matter is now in the hands of a grievance committee. Notwithstanding this Mr. Frontini went to Mr. Eagan's shed and demanded his wages. He was told to get out, and Mr. Eagan started to put him out. Frontini, the man claimed, endeavored to pick up a stone chip and he was held down by Mr. Eagan and some of the men, and it was while Mr. Frontini was on the ground that his head came in contact with divers bits of hard stone and he was cut not only about the face and head but also about the hands. Mr. Frontini was finally deposited outside the building, whereupon he started for a lawyer's office.

Here is Something Well Said.

Congressman Haskins has introduced a bill appropriating \$75,000 for a federal building at Barre. Such a building would be a fitting recognition by the government of a town which has had the most remarkable growth of any in New England during the past dozen years; the building would also be of real value to the government. Here is hoping that Representative Haskins will be able to land the appropriation for the structure.—Northfield News.

MANN BUYS AN
AUTOMOBILEWants to House It and
Asks Permit

BUT MR. GALE OBJECTS

City Receives Check of \$724.91 From
State as Its Portion of Fines
Under Liquor Law.

The board of aldermen met in regular session last evening, but there was little business before them. The matter that took up the most time was the consideration of a request for a building permit from George Mann who wants to erect a lean-to at the rear of his barn on Wellington street, which was finally granted.

Supt. Barnes of the Boys' club stated to the board that when the club rented the building on the library lot it wired the building. Now it was to move to the old Methodist church building, and it would like to sell its lights to the city or remove them. Referred to property committee with power to act.

Permission was granted Henry Alexander to keep his alloys open Nov. 26, Jan. 1, and Feb. 15 after the regular hours for closing to enable the visiting teams to complete league games.

M. M. Gordon, attorney for Amos A. Hall, notified the city it took an appeal from the award of the street commissioners made him in the widening of Prospect street. In the survey made of Prospect street to the bridge no damages were awarded Mr. Hall, but the city notified Mr. Hall to remove a portion of a piazza in front of his house next the bridge, which the city claims is in the street.

A building permit was asked by George W. Mann to build an addition to his barn next to the land of W. H. Gale. The building inspector reported Mr. Mann's addition would make to within six inches of Mr. Gale's line. Mr. Gale objected to its construction so near him.

Mr. Mann said he owned the land and was building no nearer the line than Mr. Gale's barn was near his. He said he was expecting an automobile in a few days and was hurrying to get a cover for it. He thought the residents on the hill were entitled to as many luxuries as the residents down town.

Mr. Colburn, the building inspector, said when he was asked for a building permit Mr. Mann proposed to put his horse and cow in the addition.

Mr. Mann intimated that the inspector was no gentleman.

Mr. Gale said the gentleman, Mann by name but not by nature, had been compelled to move his wall out of the street in front of the land of Mr. Blanchard at the rear of his lot and he did not know what he would do with this structure. He could not see how he could erect it without the eaves projecting over and onto his (Gale's) land.

Albeman McKenzie asked if there was any special hurry for this permit.

Mr. Mann said that he ordered an automobile last evening and he expected it in a few days and needed a place to put it. He said if the city would make Mr. Gale move his barn away from the line he would move his an equal distance.

It was voted the mayor and chairman of the street committee be a committee to decide on the request of Mr. Mann, and after the adjournment of the board, these two tried to get Mr. Mann to set his lean-to farther away from the line, but the conference was not a satisfactory one. As the permit did not come within the fire limits it was finally granted with the expressed wish that Mr. Mann set his building farther from the line of his lot.

A communication from W. A. Stowell of the Barre Railroad company was read. The same gives the city a right to build a temporary lean-to next the engine house on Prospect street. The clerk was instructed to acknowledge the letter.

The clerk announced he had received from the state treasurer \$724.91, excess of court costs paid over costs received, under the license law, for the six months ending August 31st.

Alderman Currier reported the printing committee were considering the condensation of the city report by not giving the officers so much space, crowding the resolutions, etc. It was stated the price as printed last year would be \$1.17, or if so indited, \$1.30.

Into Fine Hall.

For several weeks O. H. Hale has had a large force of carpenters, etc., at work transforming his auction rooms on Pearl street into a fine hall, and the same will be used for the first time tonight by Clan Gordon for its annual entertainment and dance.

The hall is to be known as "The Pavilion." It has been finished with a hard wood floor and is decorated with bunting, etc., in such a way as to present a very attractive appearance. The entrance is through an addition just erected. On the right of the entrance is the coat room and on the left the ticket office. Up stairs in this part is a kitchen and also a ladies' room. In the basement is the gentlemen's lavatory. The building is heated by steam.
